EXPERIENCE

Software Developer Intern

ICT@Work | [Duiven, 2024-2025]

- **Volunteers Web App (ASP.NET Core MVC + Entity Framework)**: Users can create accounts, explore available volunteer events, and sign up to participate. The platform aims to bridge the gap between volunteers and organizations by providing a seamless experience for discovering and joining various social and charitable events using ASP.NET Core MVC, Entity Framework, and Bootstrap.
- **Blazor Management Web App**: Created a simple system for admins to manage co-workers within a Blazor framework using MudBlazor component library.
- Explored .NET MAUI by building test mobile apps using C#, XAML to practice UI design and local data storage.
- Collaborated with GitHub for version control and team workflows.

ACADEMIC QUALIFICATIONS

- **ROC A12** | [Arnhem Regio - Netherlands, 2026] - Software Engineering / Development
- **Harvard CS50**
