EXPERIENCE

Software Developer Intern ICT@Work | [Duiven, 2024-2025]

- <u>Volunteers Web App (ASP.NET Core MVC + Entity Framework)</u>: Users can create accounts, explore available volunteer events, and sign up to participate. The platform aims to bridge the gap between volunteers and organizations by providing a seamless experience for discovering and joining various social and charitable events using <u>ASP.NET Core MVC</u>, <u>Entity Framework</u>, and <u>Bootstrap</u>.
- <u>Blazor Management Web App</u>: Created a simple system for admins to manage co-workers within a Blazor framework using MudBlazor component library.
- Explored .<u>NET MAUI</u> by building test mobile apps using <u>C#</u>, <u>XAML</u> to practice UI design and local data storage.
- Collaborated with <u>GitHub</u> for version control and team workflows.
